- contactless charging
- wireless power transfer

ENTRY

Yank Technologies is a vendor mentioned in the news MorningStar covers.

Drawn from 1 news source; the facts and relationships below show where each detail comes from.

OFTEN MENTIONED TOGETHER

Entries that turn up in the same stories. This is not a stated relationship. NASA, Blue Origin, Redwire Space, Honeybee Robotics, Mini-Communications and Solar Tower, United States, International Space Station, MAX POWER

ABOUT MORNINGSTAR SECURITY

MorningStar Security is a security news reader and community, started in 2009 and relaunched in 2026. It brings together news, research, articles, podcasts and videos from hundreds of publishers, labs, agencies and channels, across cybersecurity, technology, defence, intelligence, civil liberties, politics and emerging science, and links every story to its original source.

Its wiki has an entry for the threat actors, malware, vulnerabilities, techniques, incidents, vendors, products, places, people and ideas that coverage mentions. Each entry is compiled by machine from the stories the site indexes. Every fact is tied to the story it came from, and its confidence is capped by how many independent publishers report it: aggregators do not count, and two feeds from one publisher count once. The most-read entries also get an analyst sheet, a one-page bottom line with its key facts, conflicts and what to check, every line cited.

Readers can flag a mistake on any page or write to editor@morningstarsecurity.com.
